Harford County Local Management Board

-What We Do-

Working together for Harford's youth

LMB's keep the pulse of the community

- We have a **strong connection** to local providers and know what the areas of strength and weakness are in our community
- In a time of strained budgets, LMB's continue to fill the roles of **data collector, program evaluator, focus group facilitator, training convener** and **needs assessment developer** · activities that organizations often need to hire consultants to complete
- We keep local providers coming to **one table**, working together, sharing ideas and resources
- We help our county **avoid duplication** of services and ensure precious dollars are invested wisely
- We know that **problems are best addressed** where they exist, at the local level
- We keep close tabs on local, state and national outcomes of child well· being. **We know who our kids are** with the greatest needs. Our partners know what it will take to best serve these kids.
- **We exist to help those good ideas become a reality through local control of youth· serving dollars**

Community Engagement

Together we make the greatest impact; here is a sampling of the LMB's community involvement...
